(b) if so, the details thereof?

THE FINANCE MINISTER (SHRI P. CHIDAMBARAM): (a) and (b) The instructions/directives issued by Reserve Bank of India (RBI) except where the guidelines are foreign-bank specific, are applicable to all scheduled commercial banks including foreign banks. Violation

of certain RBI guidelines were noticed in the cases of certain foreign banks and depending upon the gravity of irregularities either penalty was imposed or banks were cautioned by issue of letters of displeasure. Such violations related to default in maintenance of Cash Reserve Ratio (CRR) or Statutory Liquidity Ratio (SLR) on some occasions, noncomputation of figures of liabilities for computation of CRR/SLR in the prescribed manner, acceptance of deposits, making investments in shares and debentures in excess of the stipulated limit or granting advances against shares and debentures of against the constortium discipline which were not in confirmity with the RBI instructions. In the recent past the inspection reports on certain foreign banks have disclosed violations in regard to discounting of bills, consortium lending, sanction of bridge loan, sanction of advance against the security of shares, sanction of packing credit foreign exchange transactions. Explanations of the banks have been called and penalties have either been imposed or process is on for penal action where the explanation has not been found acceptable. Some of the foreign banks had built up an excess in Nostro balance maintained by them. Some banks are reported to have remitted unauthorised foreign exchange by crediting non-convertible rupee funds into vostro accounts. RBI has held both the transferee as well as transferor responsible for these irregular transfers and the foreign banks were asked to repatriate the foreign exchange which had been remitted. Guidelines prescribing the quantum of finance to be provided for export to the extent of 10 per cent of net bank credit have been implemented by the foreign banks.
